Los Angeles, 17 April 2016

To Ines and Wright:

Yesterday we received your 16 April 2016 document "Declaration of the Better-Late-Than-Never Faction; Return to the Road of Genuine Spartacism! Regroup with the IG/LFI on the Basis of *Their* Revolutionary Continuity!" The letter is self-evidently composed in close collaboration with the Internationalist Group (IG). Over the past year your increasingly petulant defense of your personal Menshevism has morphed into a political opposition, which appropriately enough landed you in the embrace of the IG.

We consider your document a statement of resignation and hereby accept it. You and the IG deserve each other.

For the Los Angeles Executive Committee,

Finnegan
